About Deccan Cranes.

Deccan Cranes is one of India's leading industrial crane manufacturers, established in 2018 with a clear mission — to deliver strong, reliable, and high-quality cranes to factories, warehouses, construction sites, and industrial plants across India. Since our inception, we've proudly supplied over 1000+ cranes to clients nationwide, building a solid reputation for performance and dependability.

Our manufacturing facility is located at Belur Industrial Area, Dharwad, Karnataka and spans over 40,000 sq. ft., equipped with cutting-edge machinery and infrastructure. With a skilled team of 50+ professionals and the capacity to manufacture cranes of up to 100 tons, we are capable of meeting the diverse needs of industries both large and small. We specialize in EOT cranes (single and double girder), gantry cranes (Goliath cranes), jib cranes, underslung cranes, and custom-built cranes.

All our cranes are designed in compliance with IS 3177 standards, ensuring the highest levels of safety and durability. As a ZED-certified (Zero Effect Zero Defect) company, we follow eco-friendly and quality-focused manufacturing practices. Along with our products, we also offer reliable after-sales support and maintenance services, making us a trusted partner in your industrial journey. If you're looking for customized crane solutions backed by experience and quality, Deccan Cranes is here to support your growth.

Numbers that Build Trust

-  1000+ Cranes Delivered
-  50+ Skilled Employees
-  100 Ton Crane Manufacturing Capacity
-  Pan India Reach
-  40,000 sq. ft. Facility

Our Range of **Industrial Cranes**

JIB Crane.

Deccan Cranes' Jib Cranes are ideal for material handling in small work areas, providing easy rotation and smooth load movement. Designed for flexibility and durability, our Jib Cranes are perfect for loading, unloading, and assembly line operations. Available in both pillar-mounted and wall-mounted types, they offer a cost-effective solution for light to medium-duty tasks.

Our Jib Cranes are built as per IS standards with robust construction and high-quality components.

Key Features

- ✓ 360° or 180° Rotation for flexible movement
- ✓ Load Capacity from 250 kg to 5 Tons
- ✓ Compact Design ideal for tight spaces
- ✓ Pillar or Wall Mounted Options available
- ✓ Height Adjustable Up to 8 Meters
- ✓ Easy Installation and Relocation

EOT Crane.

Electric Overhead Traveling Cranes are designed for heavy-duty material handling in industries such as warehouses, factories, steel plants, manufacturing units, and construction sites. At Deccan Cranes, we offer Single Girder and Double Girder EOT cranes designed to lift loads up to 100 tons with precision and efficiency. Engineered for maximum safety, reliability, and durability, our EOT cranes are built as per IS 3177 standards and are ideal for various industrial applications, from general lifting to handling bulky materials. With advanced motorized hoists and a smooth lifting mechanism, our cranes ensure optimal performance in demanding working environments, making them the perfect solution for all your material handling needs.

Key Features

- ✓ High Load Capacity (Up to 100 tons)
- ✓ Built-in Load Cell for Weight Display
- ✓ Enhanced Safety Factor for Load Limits
- ✓ Single and Double Girder Options
- ✓ Motorized Hoisting for Smooth Operation
- ✓ Customizable Design for Specific Needs

Gantry Cranes.

Key Features

- ✓ Heavy-duty design for outdoor applications
- ✓ Load capacity up to 100 tons
- ✓ Height varied for different lifting needs
- ✓ Safety factor ensures secure lifting limits
- ✓ Available in single and double girder
- ✓ Floor-mounted rail or trackless movement
- ✓ Load cell for weight display
- ✓ Easy mobility for material transfer

Industries We Serve

- Granite and Marble Cutting Units
- Foundries and Casting Industries
- Warehousing and Logistics
- Steel and Metal Fabrication
- Construction and Infrastructure Projects
- Heavy Engineering & Machinery Units
- Glass and Ceramics Industries
- Chemical and Fertilizer Industries
- Foundries and Casting Industries
- Textile and Garment Manufacturing
- Railways and Metro Workshops
- Shipyards and Marine Engineering
- Food Processing and Packaging Units
- Power Plants and Substations

And more

Gantry Cranes are ideal for material handling in open yards, warehouses, and construction sites where a runway structure is not available. These cranes operate on floor-mounted rails and are perfect for lifting heavy loads in outdoor environments. At Deccan Cranes, we manufacture both single and double girder gantry cranes with capacities ranging up to 100 tons. Our gantry cranes are engineered for flexibility, mobility, and ease of operation, ensuring high efficiency even in rugged working conditions.

Why Choose Deccan Cranes?

Custom-built cranes for every industry need
After-sales service and maintenance support
Cranes with up to 100+ ton capacity
Expert in old crane refurbishment
Built as per IS 3177 standards
ZED certified for quality and sustainability

Our Work in Action.

60 Ton Goliath Crane | Granite Industry
| Udupi, Karnataka

20 Ton Goliath Crane | Granite Industry
| Udupi, Karnataka

10 Ton DG EOT Crane | Granite Industry
| Udupi, Karnataka

10 Ton DG EOT Crane | PEB
Manufacturing Industry | Hubballi,
Karnataka

5 Ton SG EOT Crane | Granite Industry
| Shadnagar Hyderabad

3 Ton SG EOT Crane | Glass Industry
| Navi Mumbai, Maharashtra

5 Ton SG EOT Crane | Tuffen Glass
Industry | Madurai, Tamil Nadu

2 Ton JIB Crane | Warehouse
| Navi Mumbai, Maharashtra

5 Ton SG EOT Crane | Glass Industry
| Bellary, Karnataka
